Installation with fixing support

Image 1;

1st STEP

Screw part 1 into the passive box with **detail 1** positioned downwards, as shown in image 1.

Use the screws that are attached to the back of the box.

Image 2;

2nd STEP

Screw part 2 together with part 3, so that the **angle holes** are upwards, as shown in image 2.

Use 2 washers and 2 M6 x 16mm screws

Image 3;

3rd STEP

Screw the support to the wall, using 4 hexagonal screws 5/16 x 50 mm + 4 plastic anchors.

Insert the screw in part 2 as shown in image 3, this screw will be used to receive the passive box.

Use 2 washers, 1 M6 x 45mm screw and 1 M6 nut.

Image 4;

4th STEP

Position your passive box next to the support already on the wall and adjust the desired inclination.

Each support position is equivalent to 8 degrees of inclination

Use 2 washers, 1 M6 x 45mm screw and 1 M6 nut.

Maximum inclines

-16 Degrees

0 Degree

24 Degrees
